Alexander Andrejeff

Game Designer
itsluminas@gmail.com
(+46) 0721888629

Stockholm, Sweden

Profile

Enthusiastic and optimistic **game designer** with a background in **programming**.

Fail-forward mentality through quick **prototyping** and **problem-solving.**

Effective **cross-disciplinary collaboration** and **leadership** with an emphasis on **communication**. Winner and nominee of **awards** in recognition of programming and design.

Employment History

Lecturer at Futuregames, Stockholm

03/2026–03/2026

- Taught Unreal Engine-**Angelscript** to a class of **40 students** across multiple days.
- **Planned** the **course structure** for the Unreal Engine course alongside teaching staff.
- One-on-one **tutoring** and **mentoring** with students.
- **Pro bono** — A growth opportunity for myself.

Playtester at Sharkmob, Malmö

09/2024–11/2024

- Contracted a few times to playtest and QA the upcoming game 'Exoborne'.
- Provided in-depth feedback and insights on gameplay and balance.
- Spoke directly with developers to get an understanding of what feedback they were looking for.
- Partook in group discussions on various gameplay topics, including gun-play, balance, and UI/UX.

Playtester at Stormteller Games, Gothenburg

12/2023–10/2024

- Contracted on multiple occasions to participate in playtesting for 'Lost in Random: The Eternal Die' at various points in development.
- Communicated directly with the development team about gameplay, systems, and user experience.
- Reached untested parts of levels and bosses, which gave the team an early insight into what those areas should feel like relative to the earlier parts of the game.
